

My husband is a truck driver and he loses control on the road trying to find a station that will come through. XM Radio allows him to keep his hands on the wheel and his mind on the traffic. Taking that away is a violation to his rights. We complain about people on cell phones while driving. Well, so is trying to find a station as he goes from city to city. He is alone and deserves music and entertainment.

Without truckers, this country would have no food; no clothing; no nothing. Don't punish the people who keep us living.
